## I am interested in products that:

- |   |  |
|---|--|
| <input type="checkbox"/> Control oil all day                              | <input type="checkbox"/> Even skin tone & minimize fine lines                    |
| <input type="checkbox"/> Extend the wear of eye color & prevents creasing | <input type="checkbox"/> Help clear & prevent blemishes                          |
| <input type="checkbox"/> Minimize the appearance of fine lines & wrinkles | <input type="checkbox"/> Immediately improve the appearance & texture of my skin |
| <input type="checkbox"/> Moisturize the delicate eye area                 | <input type="checkbox"/> Keep lipstick & lip gloss from feathering & bleeding    |
| <input type="checkbox"/> Reduce eye area puffiness                        | <input type="checkbox"/> Reduce dark circles                                     |
| <input type="checkbox"/> Remove makeup gently                             | <input type="checkbox"/> Smooth dry chapped lips                                 |

**Eyes:** On the next page, please review the eye shapes and ignore skin tone and eye color. Instead look for a similar eye lid to yours and placement of eye on the face. Go through each picture and pick as many as you think look like your eyes. From this the computer will determine your eye shape and create a customized eye diagram that will show you perfect application to bring out your eyes.

**Lips:** On the next page, please review the lip shapes and again, ignore skin tone. What we want to determine is lip size. Your lips size is imperative to helping you select the right lipstick shades. Select as many pictures as you feel represent your true size of lips. Then the computer will decipher if you have thin, full or medium lips and can offer the proper choices to help make you look your youngest and most beautiful
